

---

Keymacro is a powerful and intuitive “type”-aware macro recorder. KEYMACRO enables you to save multiple macros across various documents. With a simple and intuitive workflow, you can easily record actions of multiple documents simultaneously. After a macro has been recorded, it can be saved with a custom name and used across various documents for future reference. Additionally, you can share your macros with your colleagues through a link to a text file. KEYMACRO Description: Keymacro is a powerful and intuitive “type”-aware macro recorder. KEYMACRO enables you to save multiple macros across various documents. With a simple and intuitive workflow, you can easily record actions of multiple documents simultaneously.
